

Being our Best Selves

Ludworth Primary School

Ludworth Life

13th March
2026

Dear Parents and Carers,

It has been lovely to be back in school and to see how busy and productive the children have been.

This week has been full of wonderful learning across the school:

- Reception have produced fabulous handwriting based on *Little Red*.
- Year 3 enjoyed live sessions with the Royal Ballet linked to *Alice in Wonderland*.
- Year 4 created impressive Roman mosaics.
- Year 5 have been busy baking biscuits!

What a week of creativity and enthusiasm. Please check your child's Class Dojo page for further updates and photos of their learning.

As we move closer to Easter, we have several events coming up, including school trips, the Music Showcase, and Parents' Evening.

Parents' Evening is an important opportunity for us to work together for the benefit of your child. Each parent will have a 10-minute appointment. As many of you regularly communicate with class teachers already, this session is intended as a brief catch-up. If you feel you need a longer discussion about something else specific, please arrange a separate appointment outside of Parents' Evening. This helps us ensure the evening runs smoothly and avoids delays for other parents. It also supports staff, who will be completing a full day of teaching beforehand.

We look forward to Dean Assembly next Friday, the 20th, alongside our support for Comic Relief. Success Share will also take place for all classes – details are included later in this newsletter.

As I steadily increase my time back in school, I would like to express my sincere thanks to Mr Senogles, Mrs Gregg, Mrs Towner Yates, and Mrs Nuttall for stepping up and ensuring the school continued to meet the needs of our community. My thanks also go to all staff, Governors, and parents for their support, kind thoughts, and well-wishes. It is wonderful to have a sense of normality returning, and I look forward to seeing everyone over the coming weeks.

Have a wonderful week and stay safe.

Mrs Walker

We're getting funny for money this Red Nose Day!

On Friday 20th March, we're pressing pause on being serious and turning up the fun factor instead! Red Nose Day is all about having a giggle, sharing a smile, and doing something positive and feel good for our mental health.

This will be a laughter-filled day, we'll be swapping serious faces for excited ones, all to help make a real difference. Every laugh, smile, and funny outfit helps support people who need essentials like food, safety, and a place to sleep. In a world full of uncertainty, one thing's for sure: laughter really is good for everyone.

During assembly next Friday we want the children to come up with their best appropriate joke to make the children and the teachers laugh. In each class the children will vote for one child to share their funniest joke to make us all laugh in assembly.

We'd love the children of Ludworth to join in by dressing in red or wearing something fun that will make people smile. If you're able to, please contribute using the link below.

Let's make our day of joy count in a really meaningful way!
